## Youth for Justice: Our Faith in Action Overview

The JustFaith Ministries Youth for Justice series invites youth groups to explore contemporary social issues through the lens of the Christian faith. This ecumenical material is great for youth Sunday school curriculum, youth group meetings, youth retreats, in-home small group gatherings, and more.

Youth ministers/leaders can put together their own programming to fit their group's needs by choosing from multiple topics. **Each topic consists of two, 90-minute session outlines;** one provides faith-based grounding in the subject matter, and the other walks you through either inviting a guest speaker on the topic or planning an immersion experience in your local community. All material is designed to be flexible, engaging, and relevant to high school students and even their adult mentors.

Program goals/objectives include:

- Explore how youth can address contemporary social issues grounded in their Christian faith
- Cultivate healthy habits for spiritual and emotional wellness
- Build relationships with peers and adult mentors
- Develop strong leadership skills
- Provide opportunities for vocational discernment

### Session Content

Each topic includes:

- opening and closing prayers
- contemporary songs/music
- videos that frame the issue, make a faith connection to the issue, and inspire a call to action
- questions to guide group discussion

*Our Faith in Action*

- youth-friendly activities or reflections

In session one of each topic, the content is animated in two parts: **“Making It Personal”** and **“Changing the World.”** “Making It Personal” videos, discussion, and exercises focus on personal stories and the faith-based connection to the issue. “Changing the World” focuses on how individuals, organizations, or groups have (successfully) responded to the issue, and invites youth to make personal/group commitments to action.

In session two of each topic, the session outline provides ideas for lining up guest speakers or immersion experiences for your group, as well as a framework for facilitating the session, including prayer and questions for reflection and debriefing.

## Session Timing

Every youth group operates differently; some meet weekly, some meet bi-monthly, some meet for one hour, others meet for two. Regardless of how often or how long your group meets, the content of the session is adaptable to meet your needs. For example, if your group only meets for an hour, you can divide each 90-minute session into two parts. If your group meets for two hours, you can supplement the 90-minute sessions with teachings related to the topic specifically from your denomination.

Youth for Justice topics are updated annually. We request that youth leaders repurchase topics 12 months after use.

## Facilitation

Each session includes a comprehensive outline with directions for every activity, direct links to online videos and resources, and all necessary supplemental materials and resources.
